DETAILED ACTION

This action is responsive to the Information Disclosure Statement (IDS) received on 7/04/2005.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: The prior art of the IDS fails to teach all of the limitations of the independent claims in combination with other elements. Specifically, prior art does not teach that the utilization of service node resources are optimized by activating said service components at service nodes during periods of high demand for an associated service and deactivating service components at service nodes during periods of low demand for said service. Nor does the prior art teach maintaining at each service node a local storage of managed objects and data needed for service processing within the service node and monitoring the operational status of the local storage at the service nodes. Review and consideration of claims 1-4, in light of the prior art submitted in Applicant's 1449 IDS form, substantiates that claims 1-4 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
